Why Aqua

Why acqua?

Water and humidity have always created major problems on bathroom furnitures. The problem of swelling caused by water and humidity no longer happens with Armadi Art's Acqua collection. Aluminum material forms the body of bathroom cabinets. Compact laminates, glass and leather are used on the surfaces of the bathroom cabinets. Inspired by nature, bathroom cabinets are designed with special materials resistant to water, humidity and even scratches.

Perché Acqua ?

L'acqua e l'umidità provocano sempre complicazioni nell'arredamento del bagno. Noi con la Collezione Acqua abbiamo risolto questo problema. I mobili sono composti da una struttura in alluminio e rivestiti con laminato compatto, vetro e pelle. Ispirati alla natura, abbiamo disegnato i nostri mobili con materiali particolari resistenti all'acqua, all'umidità e perfino ai graffi.

Почему Aqua?

Вода и влажность всегда остаются большой угрозой для мебели в ванной комнате. Коллекция Aqua от ArmadiArt полностью защищена от этой проблемы. Каркас тумбы выполнен из алюминия.

Фасады тумб произведены из специальных компактных ламинатов, каленого стекла и экокожи. Дизайн коллекции вдохновлен самой природой. Тумбы выполнены из специальных материалов устойчивых не только к влаге, но и к царапинам.

Warum Acqua?

Wasser und Feuchtigkeit haben bei Badmöbeln immer zu großen Problemen geführt. Das Problem der Schwellung durch Wasser und Feuchtigkeit tritt bei der Kollektion Acqua von Armadi Art nicht mehr auf. Aluminium material bildet den Körper von Badezimmerschränken. Auf den Oberflächen der Badezimmerschränke werden kompaktlaminat, Glas und Leder verwendet. Inspiriert von der Natur sind die Badezimmerschränke mit speziellen Materialien ausgestattet, die gegen Wasser, Feuchtigkeit und sogar Kratzer beständig sind.
